Subject: JSW Steel Limited – Silicon steel (CRNO fully processed and semi processed steel) Manufacturing at Vijayanagar Works

This is to advise and confirm that JSW Steel Limited, Vijayanagar Works, manufactures CRNO fully processed and semi processed steel products using slabs produced via steelmaking processes that involve either a Blast Furnace or a Corex Plant, followed by Basic Oxygen Furnace steelmaking and continuous slab casting.

The slabs used for silicon steel products contain approximately 12% scrap charge. All scrap used is classified as pre-consumer scrap, which is generated internally during the steelmaking and rolling processes. No post-consumer scrap is used in the production of these slabs or in subsequent processing.

This declaration is issued for necessary reference and record.
