**To Whomsoever It May Concern**

**Subject: JSW Steel Limited – Long Products (wire rod and TMT) Manufacturing at Vijayanagar Works**

This is to advise and confirm that JSW Steel Limited, Vijayanagar Works, manufactures Long Products using billets produced via steelmaking processes that involve either a Blast Furnace or a Corex Plant, followed by Electric Arc Furnace (EAF)/ Basic Oxygen furnace steelmaking and continuous billet casting.

The billets used for Long Products contain approximately 12% scrap charge. All scrap used is classified as **pre-consumer scrap**, which is generated internally during the steelmaking and rolling processes. **No post-consumer scrap** is used in the production of these billets or the subsequent Long Products.

This declaration is issued for necessary reference and record.
