Digital identity verification, using biometrics and digital ID document checks, helps combat fraud, even when individuals aren't physically present. To counteract common spoofing attempts, we engage in capturing liveness detection and facial comparison technology.

Keeping above in mind, our RTA has introduced an OPV process, based on liveness detection and document verification.

Key Benefits:

- A fully digital process, only requiring internet access and a device.
- Effectively reduces fraud for remote and unknown applicants.
- Supports KYC requirements.

Here's how it works:

- Users receive a link via email and SMS.
- Users record a video, take a selfie, and capture an image with their PAN card.

Facial comparison ensures the user's identity matches their verified ID (PAN).

- 39) In terms of the amended Regulation 40(1) of the SEBI Listing Regulations, except in case of transmission or transposition, transfer of securities of listed companies shall not be processed unless the securities are held in dematerialised form with a Depository. ITEM NO. 7

The Company is in the midst of its growth journey with capex to augment crude steel capacity at Vijayanagar and Dolvi, enhance and digitalise mining capabilities and infrastructure in Odisha, upgrade existing and acquired facilities through efficiency enhancing projects, etc. The total capex to be spent by the Company/ its subsidiaries over the next 4-5 years is ₹1,26,161 crore (including sustenance & other capex). The

Company, in addition to pursuing organic growth, continues to evaluate and pursue various M&A opportunities to achieve its long-term vision.

The Company continuously explores options to reduce interest cost and elongate its debt maturity profile. Considering the growth plans for the Company and the opportunities for inorganic growth, notwithstanding the substantial cash generation from operations currently, the Company should be in readiness to raise resources if required. An equity fund raise will strengthen the Balance Sheet and also provide cushion against volatility/cyclicality in the steel sector, while keeping the leverage levels and financial covenants under targeted thresholds.

Raising resources by way of equity, convertible debentures or such other instruments would bolster the capital base of the Company and strengthen its financial structure for taking up the next phase of growth. Therefore, it is in the interest of the Company to be in readiness to raise long term resources with equity or convertible instruments so as to optimise capital structure for future growth. The proceeds of the issue may be used for long-term funding to meet the planned capital expenditure (including by way of investment in subsidiaries) or for refinancing of expensive debt to reduce interest costs or for general corporate purposes. Hence this resolution is an enabling resolution to raise long term resources at an opportune time.

The enabling resolution passed by the members at the 31st Annual General Meeting of the Company held on July 25, 2025, authorising the issuance of Specified Securities by way of a Qualified Institutions Placement is valid only for a period of one year from the date of the Annual General Meeting. It is therefore proposed that the Board of Directors (or any committee thereof) be authorised by way of a fresh enabling resolution as at Item No. 7 of this Notice, to raise additional long-term resources depending upon market conditions by way of issuance of:

- i. Non-Convertible Debentures with warrants which are convertible into or exchangeable with equity shares of the Company of face value of ₹1 each (the "Equity Shares") at a later date for an amount not exceeding ₹7,000 crore (Rupees seven thousand crore only), inclusive of such premium as may be decided by the Board; and/or
- ii. Equity Shares and/or Fully Convertible Debentures/ Partly Convertible Debentures/ Optionally Convertible Debentures or any other Convertible Securities (other than warrants) for an amount not exceeding ₹7,000 crore (Rupees seven thousand crore only), inclusive of such premium as may be decided by the Board (hereinafter collectively referred to as the "**Specified Securities**") to Qualified Institutional Buyers (as defined in the SEBI ICDR Regulations) ("QIBs") by way of a Qualified Institutions Placement ("QIP"), whether or not they are members of the Company, as provided under Chapter VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("**SEBI ICDR Regulations**").

The price at which the Specified Securities will be issued will be determined by the Board of Directors of the Company in accordance with applicable law and in consultation with the investment bankers/ advisors/ experts and the securities may

be offered, issued and allotted to investors who may not be Members of the Company, at the sole discretion of the Board in accordance with applicable law, however the basis of pricing of Specified Securities issued under Chapter VI of the SEBI ICDR Regulations shall be the pricing formula as prescribed under the SEBI ICDR Regulations, as amended from time to time.

The allotment of Specified Securities referred to in the resolution proposed under Item No.7 of this Notice, is to be completed within a period of 365 days from the date of approval by the members accorded by way of a special resolution approving the QIP or such other time as may be permitted under the SEBI ICDR Regulations. The end use of the issue proceeds will be in compliance with applicable laws and regulations.

None of the Directors and/or Key Managerial Personnel of the Company and their relatives is concerned or interested financially or otherwise in the resolution set out at Item No.7 of the Notice.

Your Board recommends the Special Resolution as set out at Item No.7 of this notice for your approval.

The Audit Committee and the Board of Directors including Independent Directors, after reviewing all necessary information, have unanimously granted approval for entering into the below-mentioned material RPT. Accordingly, basis the approval of the Audit Committee, the board of directors of the Company ("**Board**") recommend the resolution contained in Item Nos. 8 and 9 of the accompanying Notice to the Shareholders for approval.

ITEM NO. 8

Background, details and benefits of the transaction:

JSW JFE Steel Limited, formerly known as JSW Sambalpur Steel Limited ("**JJSL**"), is a wholly owned subsidiary of JSW JFE Kalinga Steel Limited, formerly known as JSW Kalinga Steel Limited ("**JJKSL**").

JJKSL is a 50:50 joint venture between the Company through its subsidiary i.e. Piombino Steel Limited ("**PSL**") and JFE Steel Corporation, Japan ("**JFE**").

JJSL has on March 27, 2026 acquired steel business undertaking of Bhushan Power & Steel Limited ("**BPSL**") on a slump sale basis, comprising an installed crude steel capacity of 4.50 MTPA. The steel manufacturing facility comprises, inter alia, sinter plant, pellet plant, blast furnace, steel melting shop, oxygen plant, lime kiln plant, coke oven, etc.

The Company acquired BPSL on March 26, 2021 by implementing the resolution plan approved under the Insolvency and Bankruptcy Code, 2016 ("**IBC Code**") by Hon'ble National Company Law Appellate Tribunal. Immediately upon acquisition, BPSL undertook capital expenditure programme to bring about improvements in operations and reduce costs and also to

increase its capacity in two phases viz. Phase-1 (expansion from 2.75 MTPA to 3.5 MTPA) and Phase-2 (3.5 MTPA to 4.5 MTPA). BPSL commissioned Phase-1 capacity expansion in Q4 FY 2022-23 and Phase-II capacity expansion in Q2 FY 2024-25.

Consequently, JJSL requires iron ore for its steel making operations, which is supplied by the Company from its Odisha mines. The supply of iron ore to JJSL would enable the Company to operate the mines at full capacity, which would reduce the overall fixed operating cost of mines and also in compliance with Mine Development and Production Agreement. At the same time, this arrangement ensures JJSL to get assured and consistent supply of iron ore, which improves the productivity of the iron making operations. Further, stable buyer ensure mining plan and operation excellence in mines.

The Company has been procuring billets from BPSL's steel business (now acquired by JJSL), which were further processed at the Company's facilities to value-added special steel products. This arrangement enables the Company to expand its portfolio of value-added products as compared to the direct sale of such products in the open market. The billets so procured meets the Company's quality and business requirements.

The Company procures coal from imports consolidating the requirements of all the units including JJSL, to obtain better terms in procurement and economies of scale in logistics and freight. In order to optimise the logistics costs there exists a need to procure and ship coal on cape size vessels/ other large vessels and thereafter sell it to JJSL at arm's length price. Similarly, at times, BPSL's steel business (now acquired by JJSL) undertakes similar transaction and supplies to the Company at arm's length price.

The Company's Raigarh unit does not have a coke oven facility and requires coke for its steel manufacturing operations which is supplied by BPSL's steel business (now acquired by JJSL) on conversion (job work for conversion of coking coal into coke) basis. Such an arrangement facilitates optimum utilisation of the coke oven facilities and contribute to lower coke production costs. Further, given the proximity of the Raigarh unit to JJSL's manufacturing facility in Odisha, both entities are expected to benefit from lower logistics costs compared to alternative suppliers, thereby creating operational and commercial efficiencies for both parties.

Further, due to ongoing shortage of railway rakes in East region of India, the material is required to be transported by road leading to additional logistics cost. BPSL's steel business (now acquired by JJSL) is accordingly using few railway rakes, which is owned by the Company. Further, BPSL's steel business (now acquired by JJSL) has currently expanded capacity from 3.5 MTPA to 4.5 MTPA and further require oxygen to increase the Pulverized Coal Injection (PCI) to reduce the cost of production. There are circumstances in which BPSL's steel business (now acquired by JJSL) requires oxygen due to shutdown / maintenance of its existing plants. Hence, the surplus of liquid gases available at the Company's Raigarh unit are supplied to BPSL's steel business (now acquired by JJSL) on need basis.

The facilities of the Company and JJSL are common and both the entities take mutual advantage of expertise available with each other. Accordingly, BPSL's steel business (now acquired

by JJSL) and the Company used to invoice each other for costs related common payroll and other general and administration expenses and certain other common administrative costs which are paid for by one entity and split between two entities.

In addition to the transactions described above, the Company and BPSL's steel business (now acquired by JJSL) undertook various other transactions in the ordinary course of business, including the sale and purchase of steel products, by-products, scrap, stores and spares, consumables, water and other allied products; rendering and availing of services such as leasing of land and office premises, business support services, sale of industrial gases, information technology services, marketing and sales support services, procurement support services, allocation of common expenditure and other allied services. Further, there may be instances where operational exigencies, including breakdowns, maintenance requirements or capacity constraints, necessitate the transfer, sale or purchase of certain fixed assets such as equipment, tools, machinery and standby assets between the entities. Such arrangements would facilitate business continuity, ensure optimal utilisation of assets and minimise operational disruptions.

The transactions between the Company and BPSL's steel business (now acquired by JJSL) over the last three years were as follows:

(₹ in crore)			
Transactions	FY 2023-24	FY 2024-25	FY 2025-26
Sale of iron ore	3,148	3,520	3,761
Purchase of billets	464	224	374
Sale/ purchase of coal/ coke	56	11	668
Others	127	235	247
Total	3,795	3,990	5,050

As the value of these transactions exceeded the applicable threshold limit, they were classified as material related party transactions in preceding years and accordingly, shareholders' approval was obtained at the meeting held on July 20, 2022 (for FY 2023-24 and FY 2024-25) and July 25, 2025 (for FY 2025-26, FY 2026-27 and FY 2027-28).

Pursuant to the acquisition of the steel business of BPSL by JJSL, it is proposed that aforesaid transactions be undertaken between the Company and JJSL, as and when required, in the ordinary course of business and on arm's length basis.

JJSL, being a joint venture of the Company and part of the JSW Steel Group, the aforesaid transactions would facilitate seamless business operations for both the Company and JJSL, ensure assured quality and quantity of goods and services for uninterrupted operations, and enable generation of revenue and margins for both entities.

Details of the proposed Material Related Party Transactions ("MRPTs"), including the information pursuant to the Industry Standards on "Minimum information to be provided to the Audit Committee dated June 26, 2025 ("RPT Industry Standards") read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2025/93 dated June 26, 2025 and SEBI Master Circular No. HO/49/14/14(7)2025-CFD-PoD2/I/3762/2026 dated January 30, 2026, and as placed before the Audit Committee and the Board of Directors of the Company for consideration while seeking their approval of proposed MRPTs are provided below:

Sr. No.	Description	Details
A. Details of the related party and transactions with the related party		
(A1) Basic details of the related party		
1.	Name of the related party	JSW JFE Steel Limited, formerly known as JSW Sambalpur Steel Limited ("JJSL")
2.	Country of incorporation of the related party	India

The cumulative value of the proposed RPTs is estimated at ₹8,141 crore, ₹7,830 crore and ₹8,409 crore for FY 2026- 27, FY 2027-28 and FY 2028-29, respectively, aggregating to ₹24,380 crore, which exceeds the materiality thresholds as per SEBI Listing Regulations. Accordingly, these RPTs require prior approval of the Shareholders for these three years as well. The Shareholders may please note that the value of RPTs for the period commencing from April 1, 2026 till the date of this notice has not exceeded the materiality threshold and the Company will ensure that the same does not exceed the said threshold upto the date of the AGM.

The proposed RPT limits have been determined based on the expected production capacity and raw material requirements of acquired 4.5 MTPA steel business undertaking of BPSL.

The key inputs like iron ore and coal for the steel making process are required to be provided on consistent basis for JJSL's uninterrupted business operations. Since the Company's iron ore mines are in close proximity to JJSL's facilities, supply of iron ore from these mines provides logistics advantage to the JSW Steel Group as a whole. Entering into arrangement for three years, provides JJSL with a secured supply of iron ore with consistent grades which helps improve the JJSL plant productivity. Further, the Company procures coal consolidating requirements of coal of its subsidiaries/ joint ventures also to obtain economies of scale in logistics cost. Such long term arrangement for supply of raw materials provides benefits in terms of optimum capacity utilisation and overall savings to the JSW Steel Group.

The increase in the value of RPTs is primarily on account of the following:

- BPSL steel business undertaking has been purchasing iron ore from the Company as well as third parties. With the availability of surplus iron ore with the Company, JJSL will be purchasing increased iron ore from the Company (instead of third parties), thereby ensuring assured and consistent quality supply of iron ore, improving the productivity of the iron making operations for JJSL. At the same time, a stable buyer supports mining plans and operational excellence in mines for the Company.
- increased purchase of billets basis the surplus availability with JJSL as per its plan.
- the sale and purchase of coal/ coke as explained above, undertaken on need basis, to optimize the logistics cost.

Based on the consideration and approval of the Audit Committee of the Company, your Board recommends the Ordinary Resolution as set out under Item No. 8 of this notice for your approval.

ITEM NO. 9

Background, details and benefits of the transaction:

JSW Steel Global Trade Pte. Limited ("**JSW Global**") is a wholly-owned foreign subsidiary of the Company engaged primarily in trading and distribution of raw materials such as coal, fluxes, coke, etc. Considering the huge requirement of imports of raw materials and to bring in efficiency of time and costs, the Company has set up JSW Global for procurement of coal and other raw materials for itself, its subsidiaries and joint ventures.

JSW JFE Steel Limited, formerly known as JSW Sambalpur Steel Limited ("**JJSL**"), is a wholly owned subsidiary of JSW JFE Kalinga Steel Limited, formerly known as JSW Kalinga Steel Limited ("**JKSL**").

JKSL is a 50:50 joint venture between the Company through its subsidiary i.e. Piombino Steel Limited ("**PSL**") and JFE Steel Corporation, Japan ("**JFE**").

JJSL has on March 27, 2026 acquired steel business undertaking of Bhushan Power & Steel Limited ("**BPSL**") on a slump sale basis, comprising an installed crude steel capacity of 4.50 MTPA. The steel manufacturing facility comprises, inter alia, sinter plant, pellet plant, blast furnace, steel melting shop, oxygen plant, lime kiln plant, coke oven, etc.

NOTICE

Consequently, JJSL requires key raw material inputs such as iron ore, coking coal and coal for its steel manufacturing operations. Prior to the acquisition of the steel business undertaking by JJSL, in order to bring greater efficiency, synergies of centralization, cost reduction and simplification, BPSL had been procuring such raw materials from JSW Global for use in its manufacturing operations. The transactions between BPSL and JSW Global over the last three years were as follows:

(in USD million)

Nature of transactions	FY 2023-24	FY 2024-25	FY 2025-26
Procurement of raw materials	596	468	458

As the value of these transactions exceeded the applicable threshold limit, they were classified as material related party transactions in preceding years and accordingly, shareholders' approval was obtained at the meeting held on July 20, 2022 (for FY 2023-24 and FY 2024-25) and July 25, 2025 (for FY 2025-26, FY 2026-27 and FY 2027-28).

Pursuant to the acquisition of the steel business of BPSL by JJSL, it is proposed that similar transactions for procurement and supply of coal and other raw materials be undertaken between JSW Global and JJSL. This arrangement would enable JJSL to focus on its core manufacturing activities while procurement of raw materials is managed on a consolidated basis across the JSW Steel Group. Such centralised procurement is expected to result in lower overhead costs and improved commercial terms, including discounts to index prices, as JSW Global is able to aggregate group-wide requirements and negotiate effectively with suppliers. Also, JJSL is expected to benefit from lower financing costs, as freight financing arranged by JSW Global is more cost-effective than comparable rupee-denominated borrowings and would support efficient cash flow management.

Details of the proposed Material Related Party Transaction ("MRPTs"), including the information pursuant to the Industry Standards on "Minimum information to be provided to the Audit Committee dated June 26, 2025 ("RPT Industry Standards") read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2025/93 dated June 26, 2025 and SEBI Master Circular No. HO/49/14/14(7)/2025-CFD-POD2/I/3762/2026 dated January 30, 2026, and as placed before the Audit Committee and the Board of Directors of the Company for consideration while seeking their prior approval of proposed MRPTs are provided below:

JJKSL is a 50:50 joint venture between the Company through its subsidiary i.e. Piombino Steel Limited ("PSL") and JFE Steel Corporation, Japan ("JFE"). JSW Steel Global Trade Pte. The proposed RPT limits have been determined based on the expected production capacity and raw material requirements of acquired 4.5 MTPA steel business undertaking of BPSL.

JJSL currently procures bulk raw materials from JSW Global as well as directly from certain third parties. This mix of procurement from JSW Global and directly through third parties depends on the competitive pricing. It is expected that procurement from JSW Global may increase based on pricing forecasts.

The key raw materials like Iron ore and Coal for the steel making process are required to be provided on consistent basis for JJSL's uninterrupted business operations. Entering into arrangement for three years, provides JJSL with a secured supply of Iron ore and Coal and at the same time enables JSW Global to deal accordingly with third party suppliers thereby offering strategic benefits to the JSW Steel Group as a whole in form of competitive prices.
